Summary

On October 10, 2006, International Day Against the Death Penalty, Iranian Human Rights Activist Groups in EU and North America (member of the world coalition against the death penalty), published their annual report on the situation of the death penalty in Iran. This report serves to fulfill our goal of revealing and denouncing the continuous, widespread and organized violation of human rights in Iran. This report covers the period between October 2005 and September 2006 and contains the names of the people who have either been executed or have been condemned to the death penalty.

Information gathered for this report is essentially extracted from the media inside Iran. However, this list is not exhaustive by any means, due to the established censorship and absence of independent sources of information in Iran. The Islamic Republic of Iran is rendering fragmented and reduced information, making it difficult for the defenders of the human rights to monitor their violations. For instance, under the pretense of preserving the honor of the family of the convicted, the government does not allow the name of those who are executed in public to be revealed in the media, permitting at best for incomplete names or abbreviations to be disclosed.

According to our data, during the period of October 2005 to September 2006, 282 people have either been executed (111 people / 39 %) or have been condemned to the death penalty (171/ 61 %). Another 279 people who had been condemned to the death penalty before October 2005 are awaiting execution, raising the total number of people on the list of our annual report to 561.

By looking at the list of people who have already been executed, we can note that:

- Amongst the 111 cases of execution that have been listed, 106 are men, and 5 are women;
- The number of executions has increased by 46 %;
- The information regarding 97 individuals remains incomplete; amongst these, the identity of 22 persons has never been revealed;
- 8 people were under the age of 18 when they were accused of a crime;
- The number of political prisoners execution has increased threefold to attain 6;

- 48 people have been publicly executed in 23 different cities (all in the provinces); 2 of these individuals were stoned to death;
- Only in 31 cases, the information on the age of the persons executed was available. Amongst them, 23 people were under 30, while the oldest person was 37 years of age.;
- The identity of 4 people has not been revealed.

With regards to **the people who are awaiting execution**, the following points need to be underscored:

- 171 cases have been identified, amongst them 11 women and 160 men;
- 14 people are political activists;
- Only in 70 cases is the information on the age of the people awaiting execution available. Amongst them, 4 are under the age of 18, 49 are between the ages of 18 and 30, and 17 are over the age of 30;
- 4 people were under the age of 18 when they were accused of a crime;
- For 160 people, the information is incomplete and amongst them the identity of 25 people remains unknown;
- The city of Teheran, with 97 cases (58 %) of individuals awaiting execution, ranks first amongst the Iranian cities. The rest are dispersed amongst the cities and the provinces;
- Having added the other 279 persons who have already sentenced to death penalty in the period preceding our Annual Report, the total number of people who are on death row is increased to 450.

Sommaire

À l'occasion du 10 octobre, journée mondiale contre la peine de mort, le réseau des Activistes iraniens pour la Défense des Droits de l'Homme en Europe et en Amérique du Nord (IHRAG), publient leur rapport annuel sur la situation de la peine de mort en Iran. Ce rapport s'inscrit dans notre objectif de révéler et de dénoncer la violation continue, à grande échelle et organisée des Droits de l'Homme en Iran par la République Islamique d'Iran.

Ce rapport couvre la période d'octobre 2005 à septembre 2006 et donne la liste des noms des personnes condamnées à la peine de mort et exécutées. Les données de ce rapport proviennent essentiellement des médias publiés en Iran. Il est à noter que cette liste n'est pas complète du fait de la censure et de l'absence de sources d'information indépendantes en Iran. La République Islamique d'Iran tente de donner une information fragmentée et incomplète rendant ainsi la surveillance des organisations de défense des droits de l'Homme très difficile. Ainsi, alors que les condamnés sont exécutés en public, leur identité est très souvent tenue secrète, sous prétexte de préserver l'honneur de la famille,

Selon nos données, pendant la période d'octobre 2005 à septembre 2006, 282 personnes ont été soit exécutées (111 personnes / 39 %) soit en attente d'exécution (171 personnes / 61 %). Par ailleurs, 279 condamnés à mort condamnés avant octobre 2005, sont en attente de leur exécution portant ainsi le nombre total des personnes listées dans notre rapport à 561.

En nous référant à la liste des **personnes ayant été exécutées**, nous constatons les points suivants :

- Parmi les 111 personnes exécutées nous trouvons 106 hommes et 5 femmes
- Le nombre des exécutions a augmenté de 46 % par rapport à l'année dernière ;
- Dans 97 cas l'information était manquante et dans 22 cas l'identité des personnes exécutées étaient méconnues ;
- 8 personnes avaient moins de 18 ans au moment où les crimes dont on les accuse ont eu lieu ;
- 6 prisonniers politiques ont été exécutés. Ce nombre est 3 fois le nombre total des exécutions de l'année dernière ;

- 48 personnes ont été exécutées en public dans 23 villes différentes. Parmi ceux-ci, nous avons dénombré 2 cas de lapidation. Aucune exécution n'est signalée dans la capitale Téhéran ;
- dans 31 cas, l'information sur l'âge des personnes exécutées était disponible : Parmi ceux-ci, 23 personnes sont âgées de moins de 30 ans. Selon ces informations, la personne la plus âgée a 37 ans.

En ce qui concerne les **personnes en attente de leur exécution**, les points suivants sont à souligner :

- 171 cas ont été identifiés dont 11 femmes). Parmi les 160 hommes répertoriés, 14 sont des activistes politiques ;
- Dans 70 cas, l'information sur l'âge des personnes exécutées était disponible. Nous avons dénombré 4 personnes de moins de 18 ans, 49 personnes âgées entre 18 et 30 ans et 17 personnes âgées de plus de 30 ans ;
- 4 personnes avaient moins de 18 ans au moment où les crimes dont on les accuse ont eu lieu
- Il y a 30 personnes dont l'identité n'est pas connue ;
- Téhéran, avec 97 condamnations à mort arrive au premier rang des villes iraniennes ;
- Dans 160 cas l'information était manquante et dans 25 cas l'identité des personnes exécutées n'étaient pas connues ;
- Au total 450 personnes attendent l'exécution de leur sentence, en tenant compte des personnes en attente d'exécution qui ont reçu leur condamnation avant la période couverte par ce rapport.
